This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

CRAWFORD PRIORY, CUPAR-FIFE,
November 1877.

Bodleian Library
Oxford

THE late Mr SINCLAIR died at Edinburgh, August 9th, 1877. Having been born in June 1794, he had attained the ripe age of 83. Mr Sinclair had, for upwards of fifty years, turned his attention to genealogical researches, chiefly in connection with old Scottish families; and by his settlement he bequeathed his Genealogical, Heraldic, and Antiquarian Books and Manuscripts to his nephew, the Earl of Glasgow, to be kept as heirlooms of the family. Lord Glasgow has accordingly deposited the Collection at his seat of Crawford Priory; but he has had the accompanying Catalogue compiled, so that a knowledge of the Collection may be preserved, and that persons desirous to consult it may know where it is to be found; and arrangements will be made for giving access, under proper restrictions, to persons desirous to examine the Books and Manuscripts, on application to the Factor there.
